EDUCATION

University of Chinese Academy of Sciences (Top Graduate Schools in China) **Beijing, China**

M.Sc. in Finance (Applied Economics | Natural Resource Management & Industrial Economics) **September 2019 - June 2022**

Core courses: **GPA: 3.8/5**

- Advanced Macroeconomics
- Advanced econometrics
- Environmental Economics
- Optimization & Simulation
- Advanced Microeconomics
- Financial Engineering
- Business Data Analytics
- Big Data Mgmt & Apps

Guangxi University (World-Class Universities, Project 211) **Nanning, China**

B.Sc. in Finance (Applied Economics | Financial Mathematics) **September 2015 - June 2019**

Core courses: **GPA: 3.3/5**

- Mathematical Analysis
- Operations Research
- Stochastic Processes
- Database
- Advanced Algebra
- Behavioral Finance
- Risk Management
- Statistics

RESEARCH EXPERIENCE

Research on Carbon Emissions in Guangxi Province Based on LMDI and Tapio Decoupling Models **January 2024 - Current**

- Reviewed and synthesized over 100 relevant academic papers to inform methodology and contextualize findings.
- Collected and processed data from over 50 governmental and industrial sources, ensuring high data accuracy and reliability.
- Conducted in-depth analysis using LMDI and Tapio decoupling models to evaluate the carbon intensity of Guangxi's economy.
- Identified key drivers of carbon emissions and quantified their impact, showing a 15% reduction in carbon intensity over five years.

Efficiency Measurement in Guangxi's Science and Technology Finance: Based on DEA Model **October 2023 - June 2024**

- Led a study on efficiency measurement in Guangxi's science and technology finance using DEA modeling, encompassing literature review, data collection, model analysis, and conclusion.
- Utilized the DEA model to assess the efficiency of science and technology finance in Guangxi, identified inefficiencies, and quantified their impact, offering actionable insights for policymakers and stakeholders.
- Mentored one student in producing graduation theses based on project findings, resulting in recognition for outstanding theses.

Research on Coupling Coordination of Land Use, Socio-Economic, and Ecological SystemsJanuary 2021 - June 2022

- Conducted a comprehensive literature review using R language with the Bibliometrix package and CiteSpace, analyzing over 500 academic sources.
- Utilized Principal Component Analysis (PCA) to filter influential factors, and expanded the study's scope to include a supply chain perspective in assessing system coupling coordination.
- Quantified the coupling coordination degree of land use, socio-economic, and ecological systems, providing a measurable indicator of system integration and sustainability, with a demonstrated improvement of 20% in system efficiency.

RESEARCH FUNDINGS

- Principal Investigator.** *Value-Capture Challenges and Incremental Hub Reconfiguration Pathways for the Guangxi Corridor Economy under the New International Land-Sea Trade Corridor.* Supported by the Publicity Department of the Guangxi Zhuang Autonomous Region Party Committee (Grant No. 25JYF186), October 2025 - October 2028.
- Principal Investigator.** *Feixiangjia: A Solid Waste Management Platform Tailored for SMEs.* Supported by Nanning University (Grant No. S2024-1154-9017X), June 2024 - December 2027.
- Principal Investigator.** *Research on the Decoupling State and Driving Mechanism of Carbon Emissions in Guangxi under the Dual-Carbon Target.* Supported by the Research Foundation for Youth and Middle-Aged Improvement of Bureau of Science and Technology of Guangxi Province, China (Grant No. 2024-KY-1871), January 2024 - December 2025.
- Principal Investigator.** *Digital Empowerment for Bank Loans and Regulatory Innovation.* Supported by Nanning University (Grant No. S2023-1154-9126), January 2024 - December 2024.

PROFESSIONAL EXPERIENCE

Nanning University, School of Digital EconomyNanning, ChinaSeptember 2022 - Current

Lecturer of Fintech

- Core Course Instruction:** Delivered lectures in Python Programming, Python Data Mining, Financial Big Data Technologies, and Econometrics to over 200 students annually, integrating advanced theory with practical applications.
- Curriculum Development:** Enhanced course materials with cutting-edge financial technology and Python programming, maintaining relevance to the digital economy and boosting student engagement and comprehension.
- Research and Mentorship:** Initiated and completed 5 of 8 proposed projects at the Digital Economy Research Institute, published findings, and provided academic and career guidance to over 50 students, contributing to a 95% thesis defense pass rate.

Shanxi Land Institute of Natural Resources and Green DevelopmentBeijing, ChinaJune 2021 - July 2022

Staff of Technology R&D

- Project Leadership:** Led significant projects, such as the *Study on Comprehensive Land Improvement in Huangtong Town, Lingao County, Hainan Province*, and the *Construction of a Town of Incense in Huangtong Town*, securing a 3 billion yuan investment.
- Policy Development:** Spearheaded integrated land policy projects in Xinjiang, Guangxi, and Yunnan, enhancing land utilization efficiency by an estimated 10%.
- Publication Contribution:** Authored a module in the *Natural Resources Lecture Series*, published by China Earth Publishing House, on fundamental information science principles.

HONORS & AWARDS

- Nanning University Outstanding Graduation Thesis:** Outstanding Advisor Award, June 2025 (Title: "Research on Price Prediction of CSI 300 Index Based on K-Means and LSTM Models", Student: Jinmei Huang).
- Nanning University Outstanding Graduation Thesis:** Outstanding Advisor Award, June 2024 (Title: "Research on the Measurement and Current Situation of Technology Finance Efficiency in Guangxi", Student: Yinyin Liao).
- ICBC Cup National College Students Financial Technology Innovation Competition:** Outstanding Instructor Award, December 2022&2023 (Highly recognized competition in China).
- Nanning University Teaching Skills Competition:** Third Prize, July 2022.
- National Undergraduate Mathematical Modeling Competition:** Second Prize of Guangxi Region, July 2019.
- American Mathematical Contest in Modeling:** "S" Prize, January 2017.

SKILLS & PROFESSIONAL CERTIFICATE

- Languages:** Mandarin (Native), English (Fluent, GRE 321).
- Developing Skills:** C, Python, Matlab, SQL, R, SPSS, Stata, LaTeX, Git.
- Frameworks/Technologies:** Scrapy, Pandas, Selenium, Request.
